

JUN 10 1983

OK03549 Fansteel Metals (OKD007221831)

Samuel L. Nott, Chief  
Enforcement Section, 6AW-SE

Gerald Fontenot, Chief  
Enforcement Section, 6AW-HE

This facility is an active metals manufacturer. The site was listed in the CERCLA files because it was on the Surface Impoundment Assessment list. Our file indicates that as of July 1982 there was some confusion over the facility's RCRA status.

Could your staff please review your files and our file to determine the current site status? If the probable ground-water contamination and radio activity problems are not being addressed under RCRA, we will initiate further CERCLA action.

If you have any questions about this site, please contact Martha McKee at 6421.
